

The following will document the degeneracy of a 30 year old pedophile named “Tatsuhiro” (named after an anime character) and a few of his associates.

... His current discord, it uses “中原岬” as the name, as it links to his favorite anime.

(Also yeah, he named himself after his favorite anime character, he’s obsessed with it)

Hi i am Tatsuhiro Satou https://welcometothenhk.fandom.com/wiki/Tatsuhiro_Satou

Other aliases include "anonymous12379", “[hikikomori1993](#)” or “[hikikomori93](#)”. This document was created with the assistance of 4 people, with the intention of highlighting why Tatsuhiro is morally fucked up and should move on.

I wrote this shit in New Times Roman just to accentuate my points

— CONTEXT —

Zombiebeatz2000 was the online pseudonym of a 15 year old girl named Ashley who was bipolar and often rambled and talked about her mental health on her YouTube channels.

Other aliases she went under were “Noriko Hikichan” or “Nadesicola” and she was doxxed frequently by 4Chan users. In a nutshell: Ashley was a self-diagnosed “hikikomori” that avoided real-life contact. Otherwise, she was a vulnerable teenager who happened to document her troubling life.

Eventually, Ashley moved on with life in 2019 and that was supposed to be the end of the story as far as her internet presence goes.

Fast forward to modern day (late 2023), Ashley posted a community note on one of her YouTube channels asking everyone to leave her alone. I **highly** recommend reading it in its entirety for more context.

<https://www.youtube.com/@nadesicola/community>

(A small extract from it)

I admit that I left a very chaotic digital footprint. I was a lonely teen, and enjoyed the validation I got online. The ability to socialize and meet people who listened to me. I was vulnerable and got involved with some not-so-great people, which resulted in even more chaos on my part. I hurt people, people hurt me, I break down and vomit it all online, the only place I felt people would listen.

I feel sorry for all of you that relate to me back then. I truly hope you all figure it out and get past it, as I did. I've worked so hard to become what I am now. No, I am not active on social media. My last two accounts (a Facebook and an Instagram) I have given to someone else, and I share it just to keep in contact with close friends. I have zero desire to come back online. I went to school, I got a job, I am married (no, I am NOT divorced), I have friends, I am doing really well. The ONLY thing that keeps me up at night is all of you that keep trying to find me, trying to make me viral, trying to revive a person who no longer exists.

She goes on to detail her concerns and fears while publicizing the terrible actions her stalkers or "researchers" have done to her for over a decade. She claims she was never an internet icon and backs this up by saying she was practically a nobody when she was still actively making videos.

Around 2019, "Tatsuhiro" became obsessed with Ashley in a disgusting way.

Years after his initial obsession, he would make a "KnowYourMeme" article covering her entire online history. The problem is that Tatsuhiro also publicized her doxxes/leaks and other information that was normally never meant to be known, such as her marriage. Tatsuhiro went as far as citing the doxx sources, detailed the darker points of her life, and so on.

The issue with this article is that if anyone got one of her videos recommended to them, they would look up her name on Google, and they would then see the KYM article with all her doxxes out in the open.

To make things worse, he would frequently spam his article all across 4Chan to show off what he made. Commonly referencing her in older threads, likely out of his own obsession. (Proof on this later)

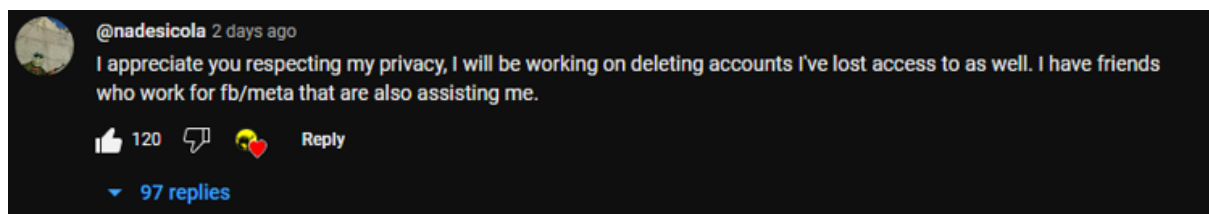

The point of KnowYourMeme is to focus on memes and widespread internet icons, but he blatantly used it to show off his knowledge on her in a way that breaches what was necessary.

He should've just highlighted her relevancy years ago and left it like that. Going past that is like if someone updated Boxy's article to include private snippets of where she is now against her consent, when that no longer links back to her mainstream popularity or meme, nor the "story" behind it. More on this in a moment.

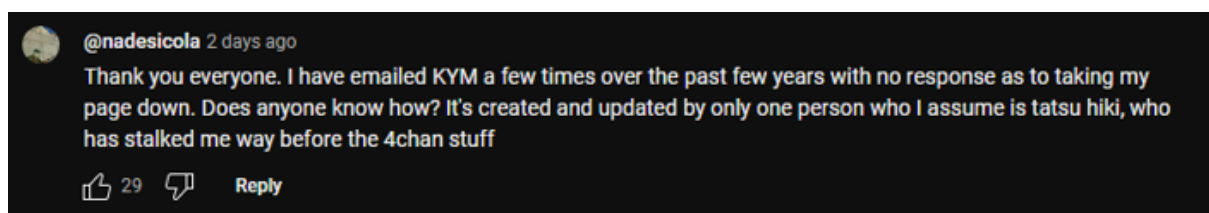

Returning back to the present...

There were many people who responded positively to Ashleys community post; it was so effective that countless documentaries detailing her life got taken down instantly, as well as many archives.

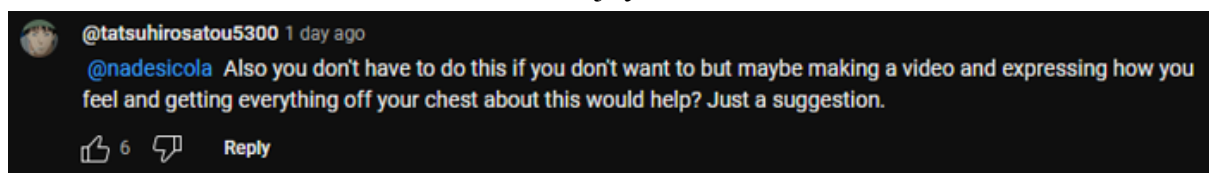

She even commented under one archive channel herself:

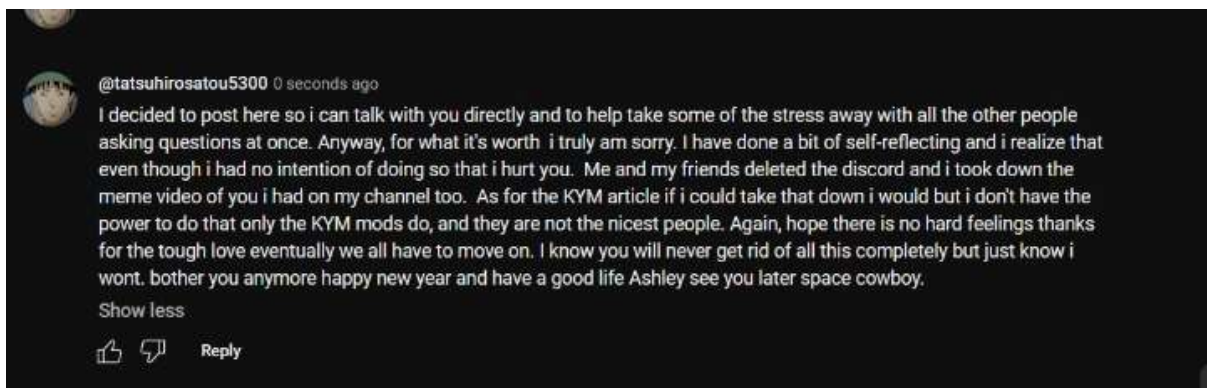

She would talk to a lot of the people in the replies. Here, she would reference Tatsuhiro as one of her oldest stalkers.

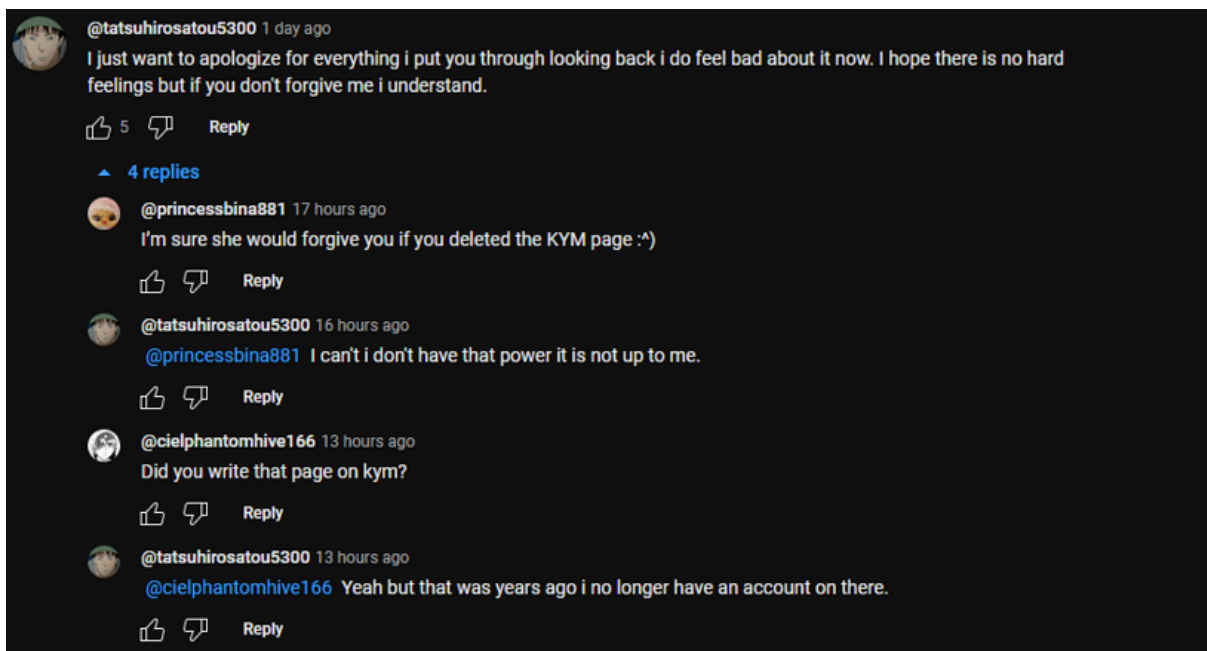

He would apologize, and then provide solutions which were just nonsensical, likely so she would make more videos for him to enjoy.

... This reply never made it to her, as it was posted in the wrong comment section.
Lmao

He highlights that he lost access to his KYM account, so he couldn't take it down anymore.

Ideally it should've ended here. He already apologized, and it's a thing of the past. Unfortunately it wasn't that easy.

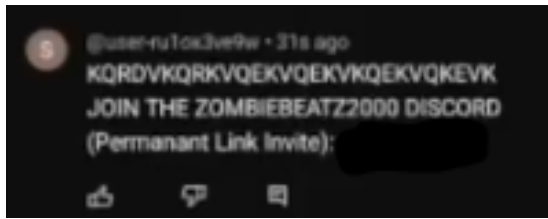

One of Tatsuhiros friends went by “Penus” (“Dorothy” or “lampenus” alternatively), would idiotically try and claim that the account she posted on was fake:

After realizing he was delusional, a few **hours** would pass until him and Tatsuhiro decided to make once another degenerate decision:

They would create a discord server to “appreciate” her. Literally hours after she made her post telling people to just move on, and hours after he would provide his pisspoor apology for years of obsessing and stalking her.

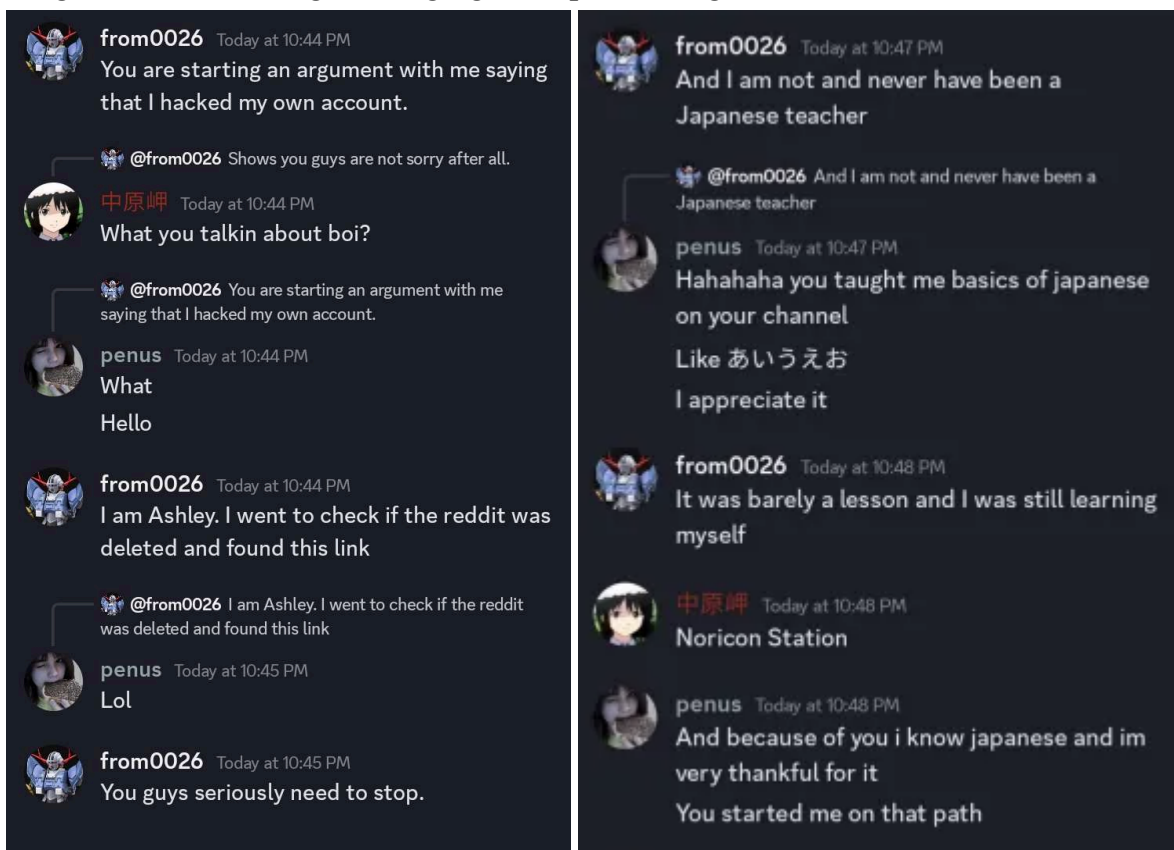

After the discord server was made, they would spam its link in the comment section so people would join,

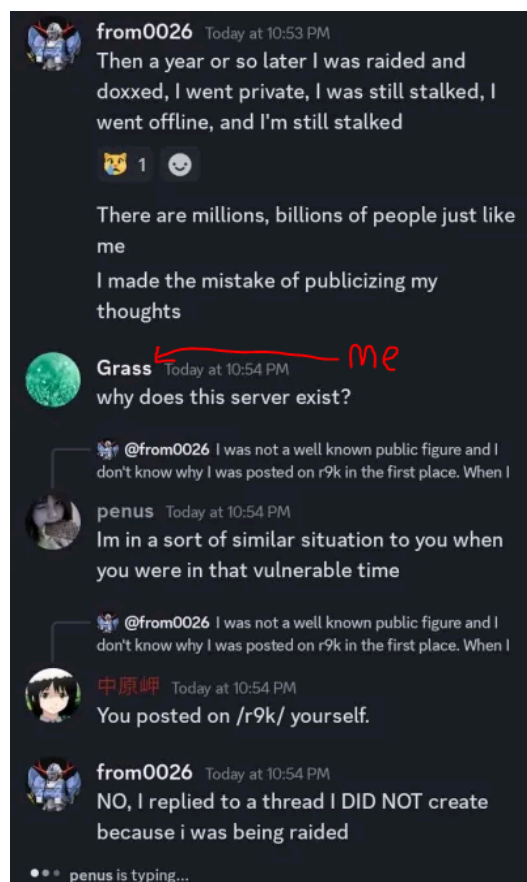

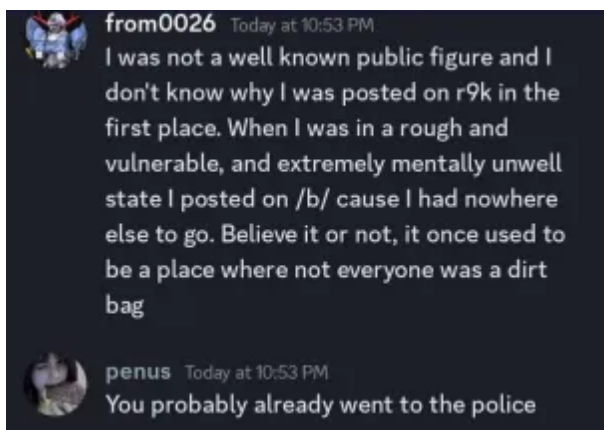

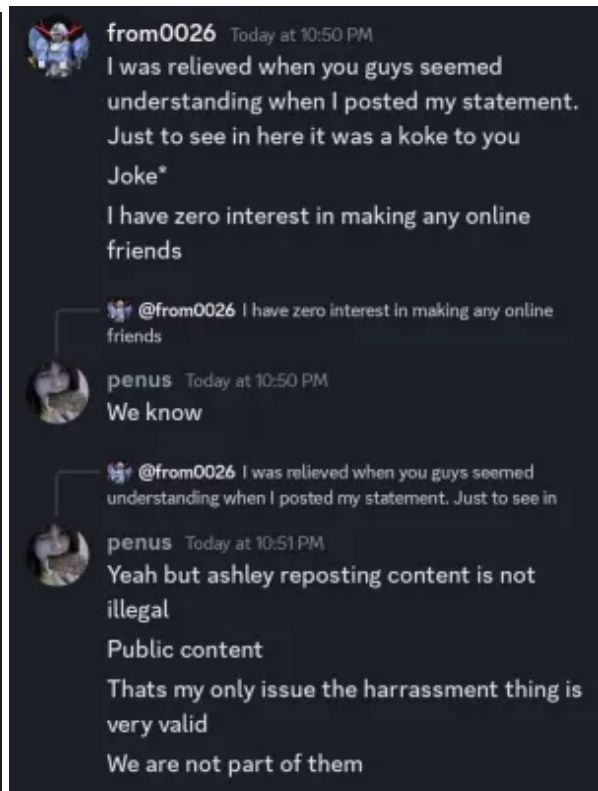

Ashley herself would join the discord server to tell them to leave her alone. They would instead simply argue back with her. And mock her.

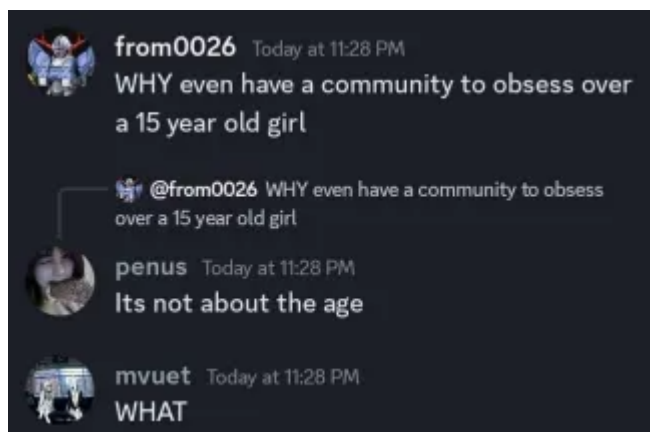

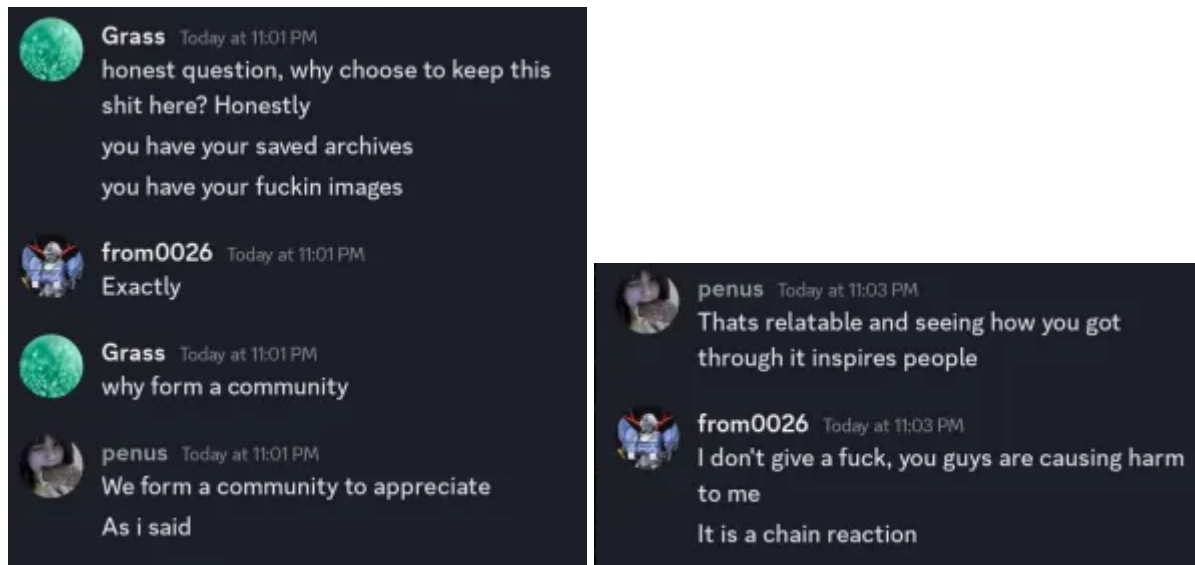

She used an alt with the name “from0026” here. Tatsuhiko is the guy with the japanese name (he’s obsessed with “Welcome to the NHK”, an anime about NEETs)

Ashley would first send images of her room to prove it was her, as well as a few images of her dead dogs belongings, but proceeding onwards:

Penus would continue splaying his psycho-obsessed sentiments on how they were just “appreciating” her:

He would then continue to push his bullshit on why it might not be her:

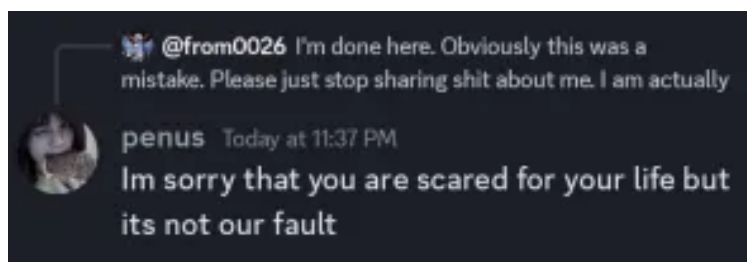

... Tatsuhiko being a discord mod lmao

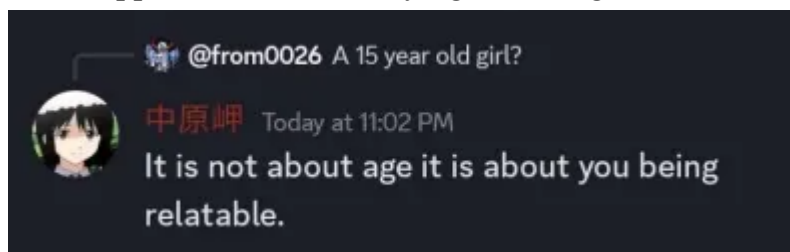

She would leave the server with this final sentiment

... Even “mvuet”, an absolute fucking degenerate was against the creepy ass shit he was saying

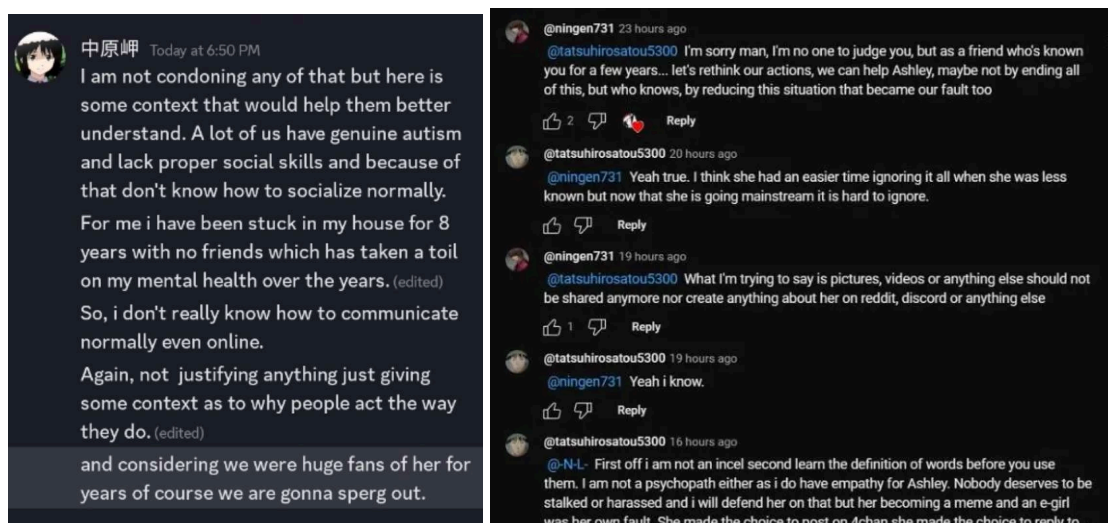

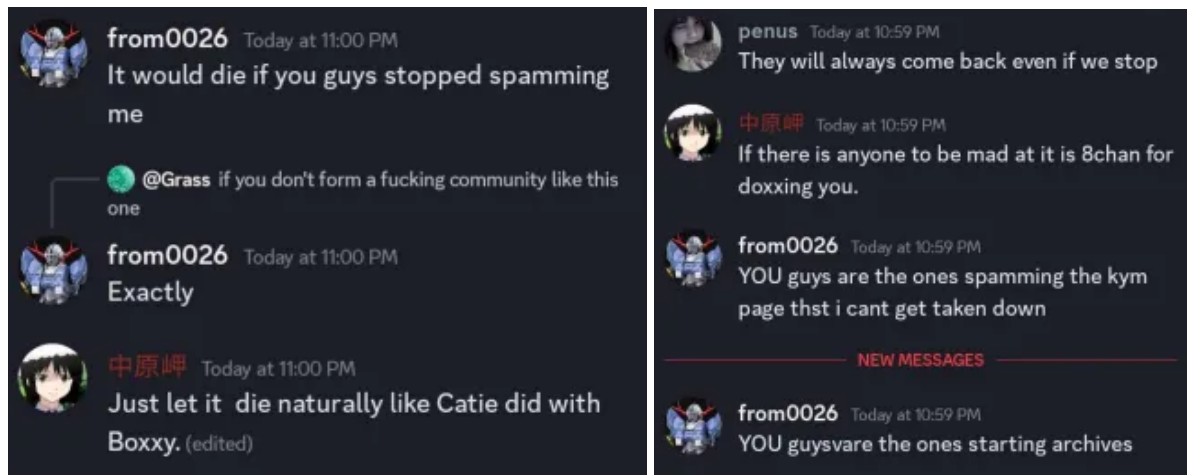

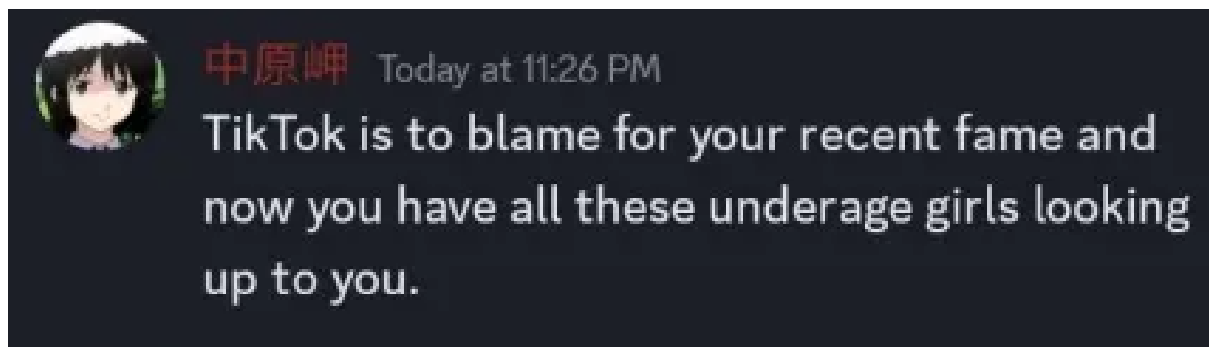

First snippets of Tatsuhiro saying some degenerate shit

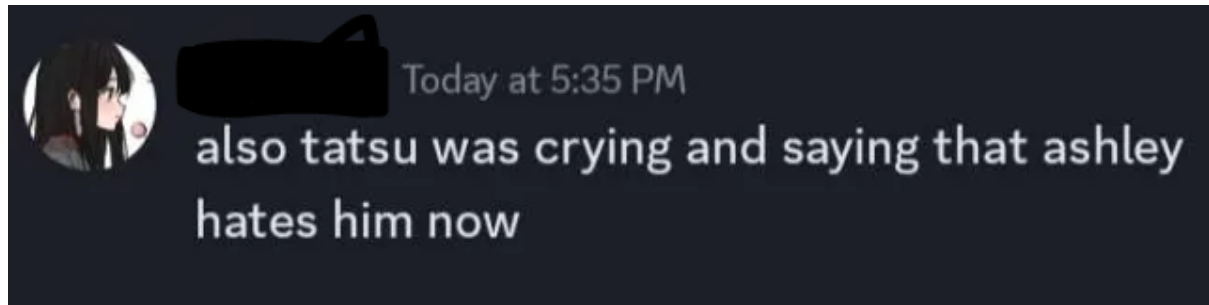

... Some hilarious foreshadowing this is

And also here's a compilation of Tatsuhiro blaming everyone but himself:

Worth noting that out of Penus and Tatsuhiko, Tatsuhiko is literally the only one with autism, and the only one who is a shut-in.

As for the aftermath: Tatsuhiko would cry in VC (**not a joke**), because Ashley now hated him.

He would also DM friends begging them to tell her he's a good person:

This is Tatsuhiko struggling to accept he's a bad person with a weak threat, days later.

... I literally just told him this was morally wrong lmao, for some reason he thinks he's the stepdad of Endchan when 90% of its users aren't as fucking delusional as he is

And finally, more reason behind why Tatsuhiro had a great negative impact:

No, again, tatsuhiro spams me in multiple communities. For years.

Looking through old 4Chan archives and other older posts, she isn't wrong. Very commonly he would appear in threads posting his own link to his KYM article on her, he would post this on other platforms such as facebook or tik tok as well.

To follow up, here are multiple contextually important snippets from Tatsuhiko, most of which show off his bountiful degeneracy.

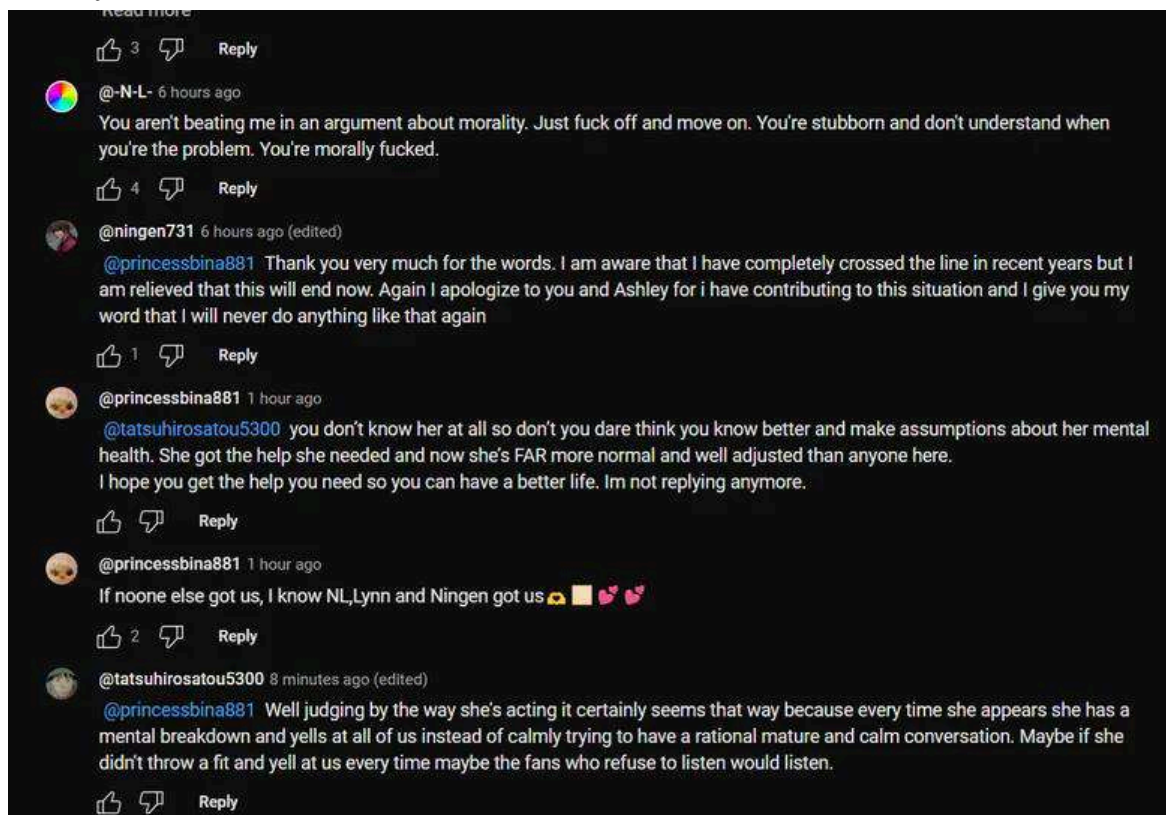

... Apparently to him, “coping” is to obsess over her and to ignore her wishes

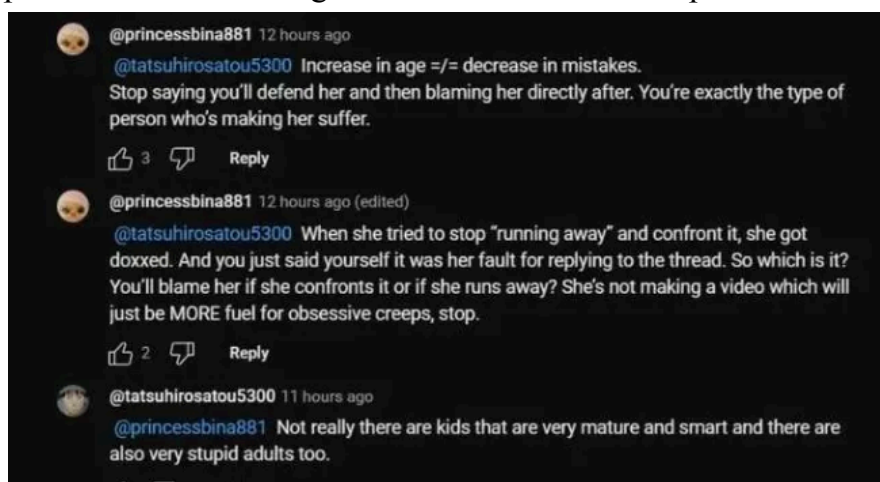

... This shows Tatsuhiko idiotically justifying himself with autism again, also, his suicide was something he tried to use to guilt trip Ashleys best friend for whatever reason.

The comments weren't fully archived, but for some reason, Tatsuhiro tried to argue his degenerate points to Ashley's best friend. When he was cornered, he began justifying himself by using his autism and suicidal state. The irony? Ashley's best friend is literally autistic as well.

Suddenly to him, Ashley appeared and had a “mental breakdown”. Even though she literally just joined the server to beg them to leave her alone. He even literally cried afterwards. It's completely embarrassing seeing this new defense.

He also had a tendency to just read things wrong and single out completely miniscule points in someone's argument. Then he would respond with some dumb shit like this

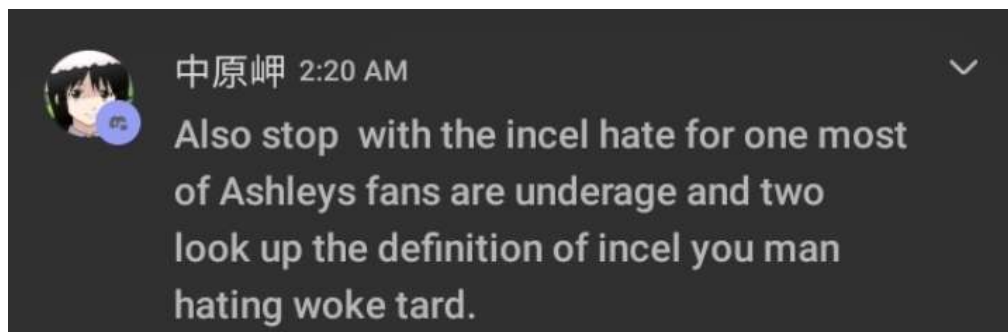

... This was his only response to both of those statements. He's bad at responding.

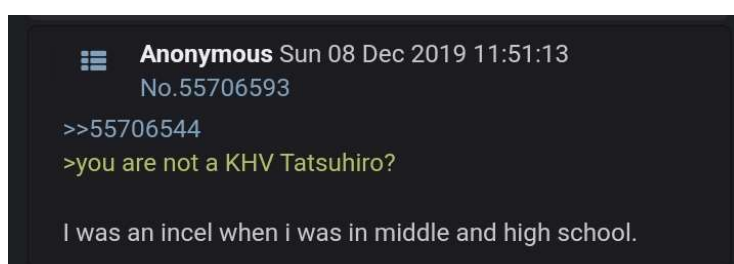

He also particularly hated being called an incel, even though he apparently once was one.

... “Stop the incel hate” is a weird statement considering he claims he isn’t one? Then why be against incel hate?

... He edited this message to appear as the first screenshot. Wtf is a “man hating woke tard” anyway?

Anyway, after the first discord ordeal, Penus would try to make another discord server to troll Ashley this time:

ppenus

6 minutes ago

JOIN THE OFFICIAL ZOMBIEBEATZ2000
DISCORD SERVER!!!!

(Permanant invite):

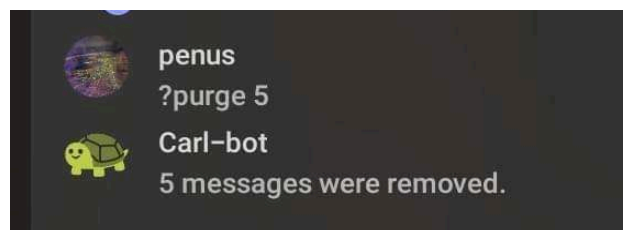

<https://discord.com/invite>

As with the comment before me, Ashley herself joined the discord server along with her husband and said many things, such as asking people to stop doing stuff and elaborated more on her personal life, while also sending 3 pictures of her dead dog and room she recorded some of her recent instagram videos in (join and ask the server owner for proof), so the rabbithole continues inside the discord server!!! If you have any questions as to zombiebeatz2000 there are many people inside who know a mot about her that would be happy to answer your questions.

... This guy is an absolute fucking rat

Luckily this discord server barely worked, and devolved into everyone just laughing at Penus for his attempt at “trolling” her. After this document would be made, he would ban everyone who faulted him for being friends with Tatsuhiro, as he still is. Now he tries to wipe all messages away that criticize him or Tatsu.

As for my reason behind Tatsuhiro being a pedophile:

Tatsuhiro was found on the “SanctionedSuicide” forums with the name “hikikomori1”. He was seen in a thread about pedophilia, and openly seemed to defend multiple pedophiles and **admitted to being one himself**:

<https://sanctioned-suicide.net/threads/are-you-straight-or-lgbt.107347/page-3>
<https://sanctioned-suicide.net/threads/is-he-a-pedophile.122401/>

Here, a user is admitting to being a pedophile, which Tatsuhiro would react to:

I know my mere existence will be controversial, so I'll put this behind spoilers for those that would rather not see.

Spoiler

I'm a pedophile. I'm not gonna use some fancy new words 4chan and twitter came up with (MAP) as I dislike the idea of inventing new terminology for something we already have a word for.
To clarify: non-offending and strongly against any kind of abuse ofc; I see this as obvious but some do not...

Unfortunately I couldn't find the selector switch for what I'd be attracted to when I was born - so I didn't really have any influence. However I was able to sorta "make" myself gay by focusing on.. well gay stuff and getting a bf.
being a twink helped in this regard.
but lucky this topic doesn't affect me too much and is certainly not the reason for my passively suicidal behavior

 Hikikomori1 

... *Bad sign that he hearted it*

Tatsuhiro would respond to this by **OPENLY ADMITTING** to being a pedophile:

Spoiler: Trigger Warning.

I am just like you so i can relate.
However while i understand why you feel that way the word pedophile has been bastardized and is too negative IMO.
I prefer to be called a ロリコン Lolicon Girl Lover or Child Lover.

... Ah yes, he would prefer not to be called a pedophile, but rather: A child lover. So much better. Also ignoring the fact that the original poster wrote their message feeling ashamed yet Tatsuhiko responded as if to reassure him it's fine???

Also the fuck is this? "Too negative"? So wanting to fuck kids shouldn't be seen as negative?

I am just like you so i can relate.

In the second link, he would defend someone who at the age of 19, had sex with a 14 year old. He would drop a few bombshells there as well:

Agreed

The definition of pedophile is "a person who is sexually attracted to children."

Pre-pubescent to be more specific.

HighFlight55 said: 

Given this encounter happened over 20 years ago, and has not been repeated, my opinion is that it doesn't meet the definition. And if the statue of limitations has expired, then there no legal issue to deal with. And it sounds like the victim doesn't consider herself a victim. Adding everything up, I would consider this as to "kids being kids" a long time ago.

Pretty much the same here.

HighFlight55 said: 

That said, the one thing that concerns me is his strong feeling that he is a pedo and is considering ctb over it. To me, this screams something more might be going on. As one with a dark, second life (not as a pedo), I would wonder if he's hiding something. Does he have an alternate life in which he engages in risky behavior, in his case having sexual encounters with minors?

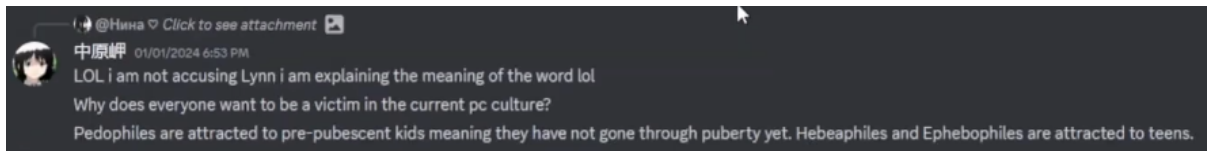

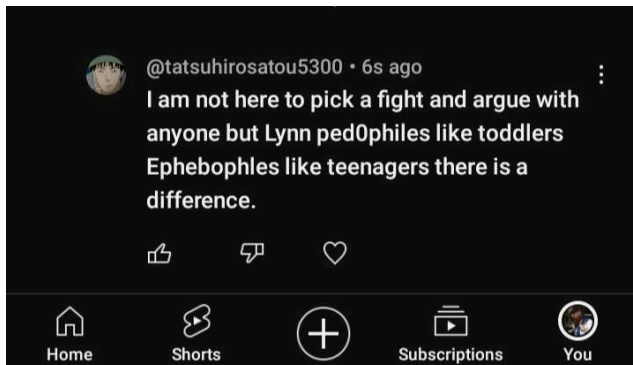

If he is so worried about being attracted to minors than he is not a real pedophile coming from a real pedo here who has the attraction but doesn't act on it.

Pedophile OCD is different from having the actual attraction.

... "If he is so worried about being attracted to minors than he is not a real pedophile coming from a real pedo" - What the absolute fuck

Admitting to, defending and somehow... gatekeeping being a pedophile? All in the same 2 forums? How remarkably fucking vile. Lynn found those.

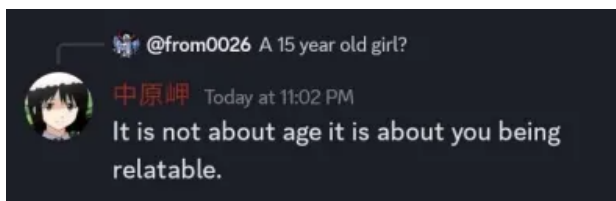

Following that, here are multiple screenshots from other platforms:

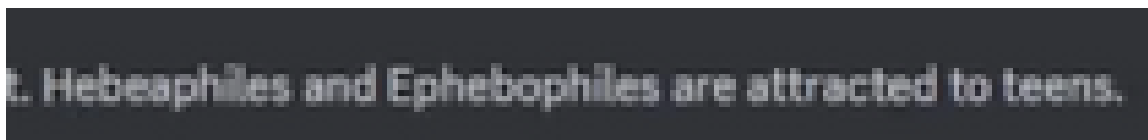

... Lynn is a friend of mine, btw. She found all the threads from earlier too

I'm sorry but saying "Ephebophiles like teenagers, there is a difference." is the most pedophilic shit I've ever heard, especially from someone who likes a 15 yr old

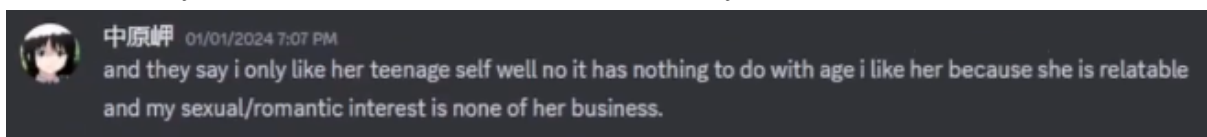

<https://youtube.com/shorts/jcXK-sPqsL0?si=K4Ez6MhEmBXxOfMI>

Also I hate to be that guy, but defending himself by saying Hebeaphiles "are attracted to teens" is god awful. The attraction range for a hebephile is literally 11-14, ephebophiles like 15-19. He said the same shit on the forums from earlier too.

He likes Ashley from her earlier days on the internet, meaning he likes her from age 14-16. Ashley didn't make videos on her channels by the time she was 17.

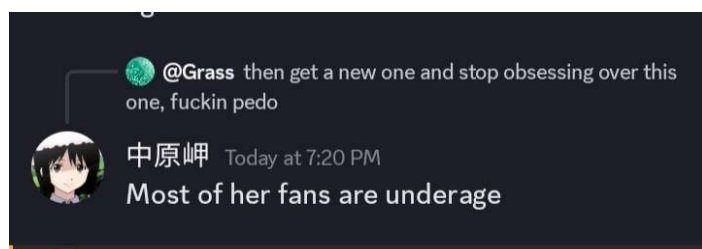

... Referencing and ignoring "sexual/romantic interest" here is already fucking sus in itself

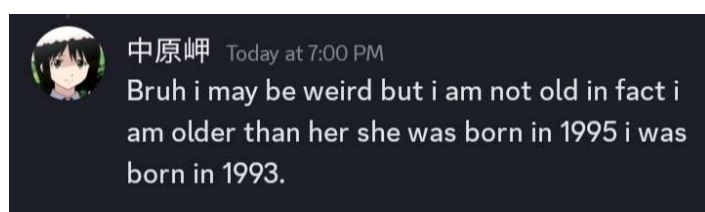

and they say i only like her teenage self well no it has nothing to do with age i like her because she is relatable

... This is in 2019, years before present day, and years before she would return to the internet to tell him to stop.

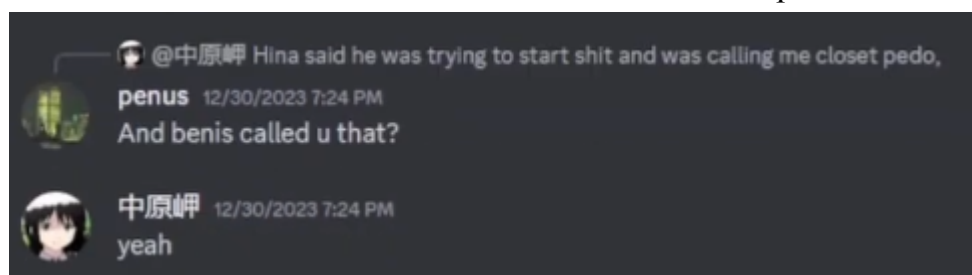

... He's 30 years old. Literally born in August 1993. Some hilarious introjection this is.

... Somehow this makes it better? When he's obsessed with her 15 year old self?

Even one of his friends who was arguably more obsessed with Ashley than he was, would leave the rabbit hole and call Tatsuhiro a "closet pedo" in the end.

On a wiki forum (more on this later), Tatsuhiro would only befriend 14-15 year old girls under the name “throwaway47”:

This one is an extra, but Tatsuihiro claims to have been a part of her “inner circle” a long time ago, while I wouldn’t be surprised if that was the case, he would actually get berated by one of her friends, who would call Tatsuihiro a pedophile as well:

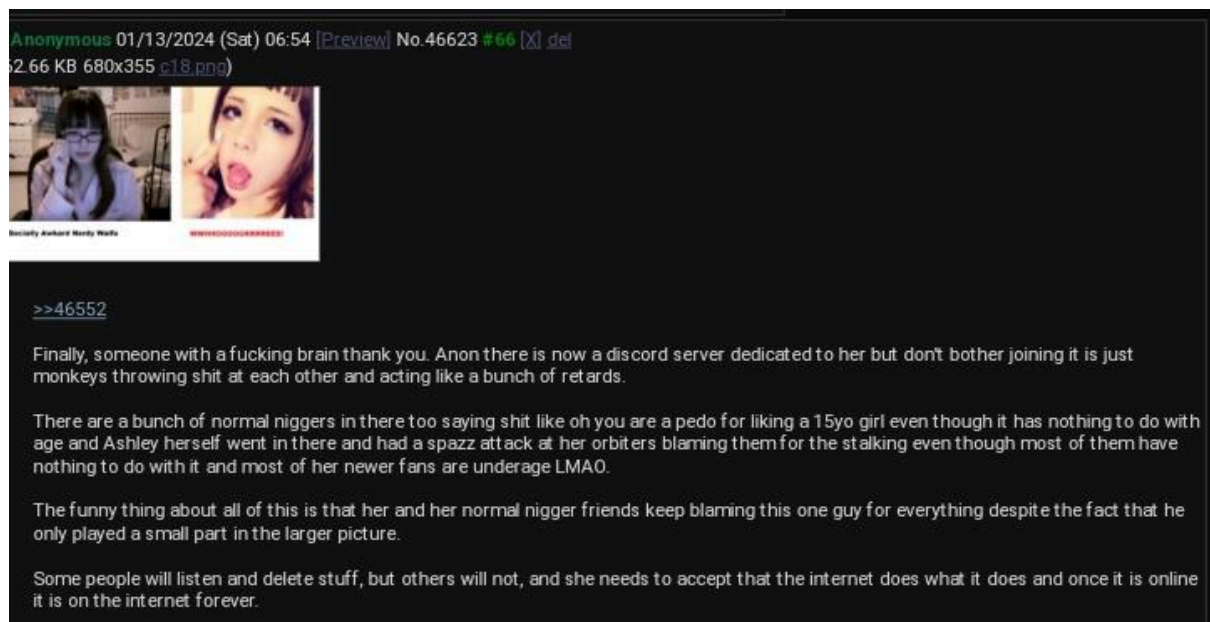

... The original screenshot was unfortunately not saved, but Lynn remembers it in good detail, I just find it ironic that this many people have snapped back against Tatsuihiro for being a pedophile.

He would also say this on an R9K thread, some insane projecting:

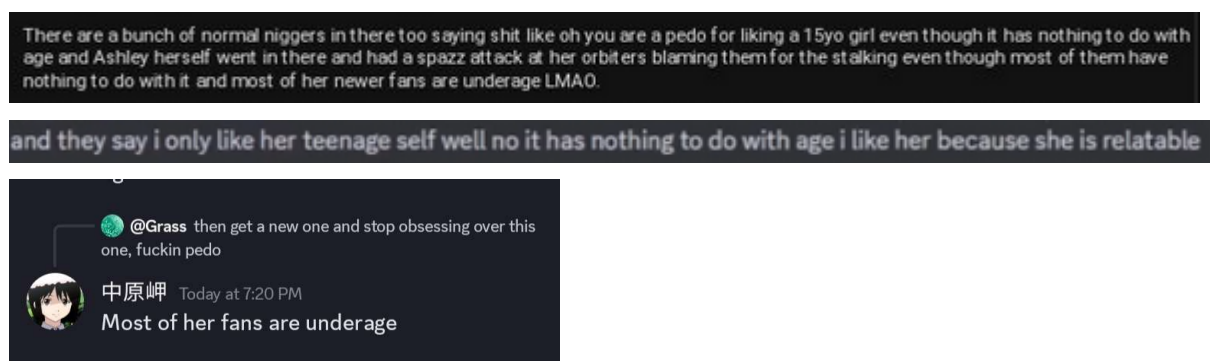

It gets worse though!

Pathetically, Tatsuhiro would type this out, posing as someone else on Endchan:

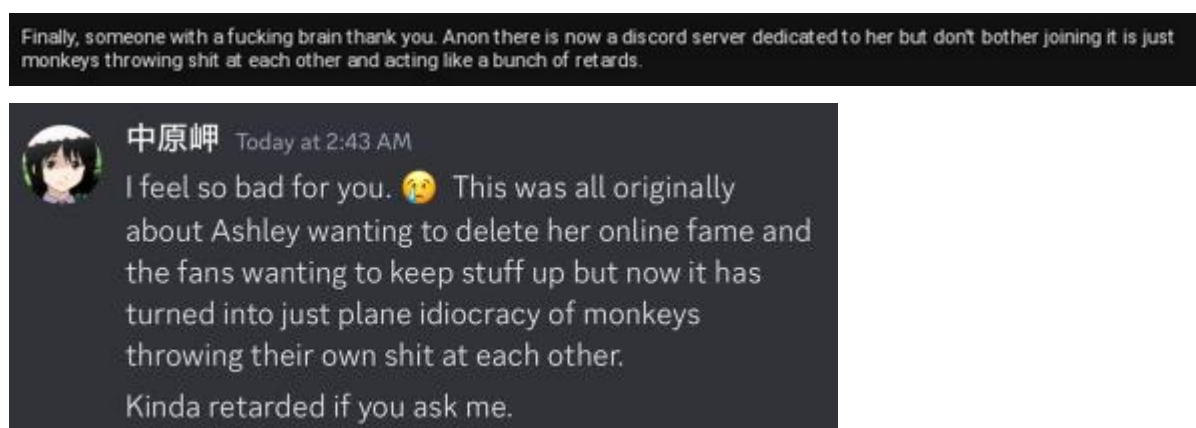

We know this is him because he's limited to a vocabulary of 9 different words, and repeats the same shit often.

This:

And this too:

This one is hilarious because it's Tatsuhiro trying to pretend he's a third party, defending himself.

The funny thing about all of this is that her and her normal nigger friends keep blaming this one guy for everything despite the fact that he only played a small part in the larger picture.

Some people will listen and delete stuff, but others will not, and she needs to accept that the internet does what it does and once it is online it is on the internet forever.

“Her friends keep blaming this one guy (himself) for everything”

“Some people will listen and delete stuff, but others will not”.

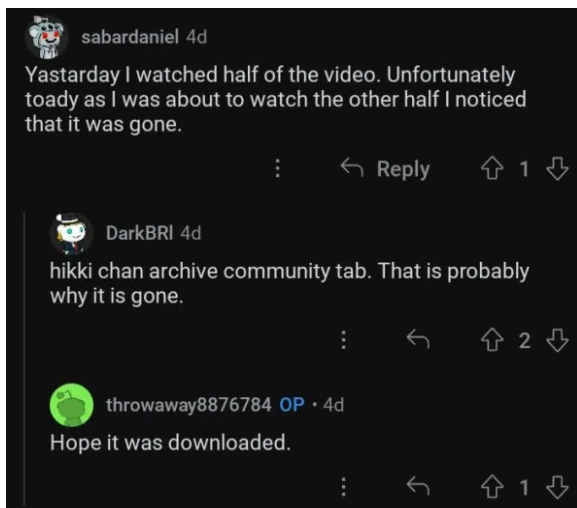

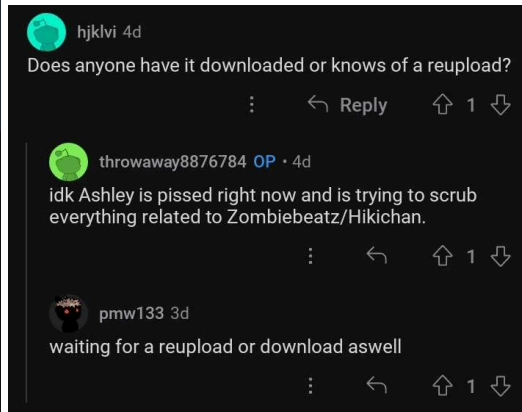

He literally just gave reason as to why they keep blaming him. Because he wont listen. It's a stupidly flawed argument.

This is the same board he tried to scare with earlier:

... Truly terrifying :fearful:

He also had a throwaway reddit account named “**throwaway8876784**”, these are some of the posts left behind from it:

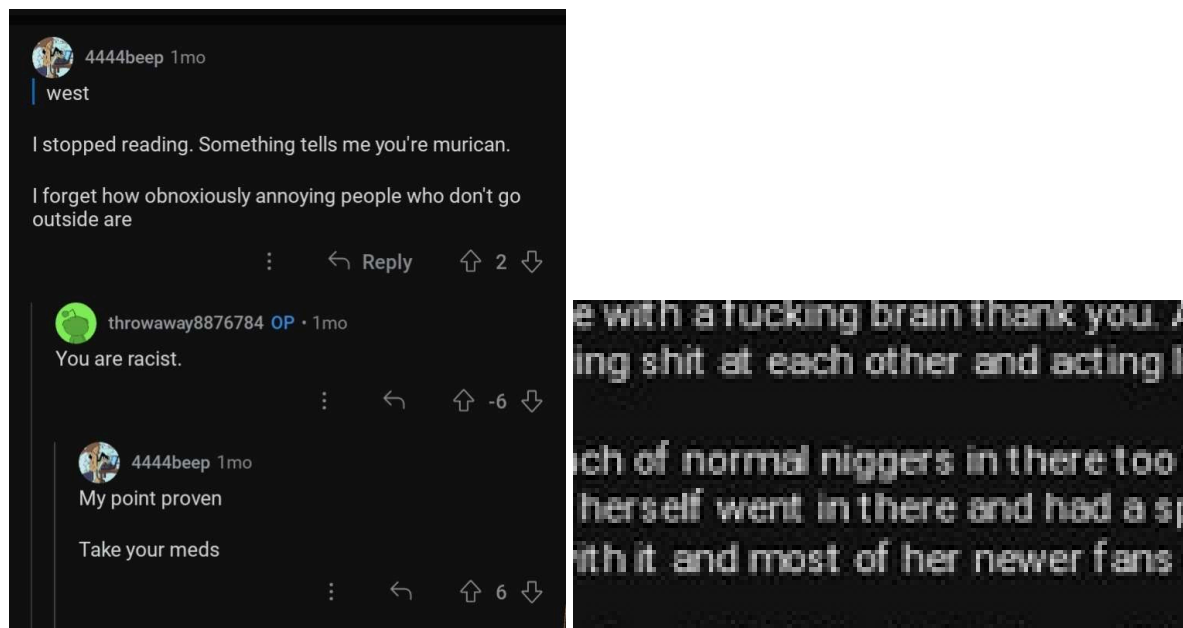

... These are in reference to one of her documentaries

Unrelated, but for some reason this documentary was all he cared about as soon as Ashley made her initial announcement

... You'll see in a moment but he loved this fucking documentary

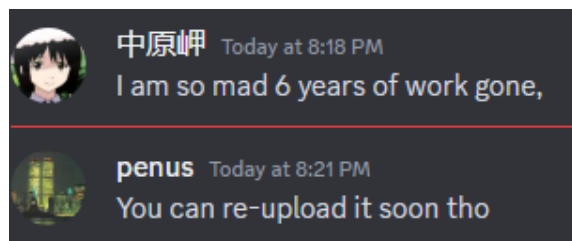

Also, he frequently went commenting on hikikomori subreddits.

... “You are racist.” is funny considering his choice of vocabulary elsewhere

Anyway, after months of it being up, enough people would barrage the comments of the KYM article, so much so that **it would get taken down**. Tatsuhiro was in the same comment section, on an alt account, defending himself as a third party again.

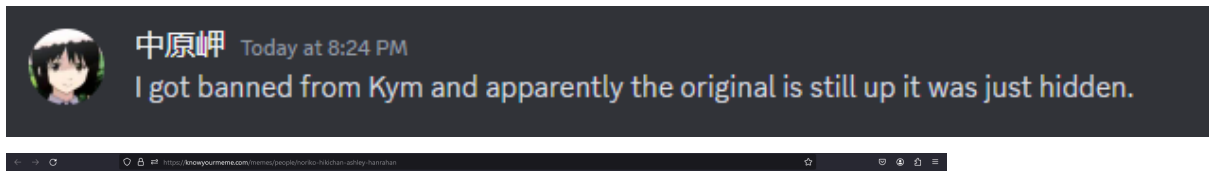

Those comments weren’t archived, and soon after, the KYM article was taken down. With that, Tatsuhiro was also banned from KYM on his alt account.

...”“So mad! 6 Years of obsessing over someone and documenting her entire life! Gone!””. Not even his favorite end-chan E-girl board is that depraved

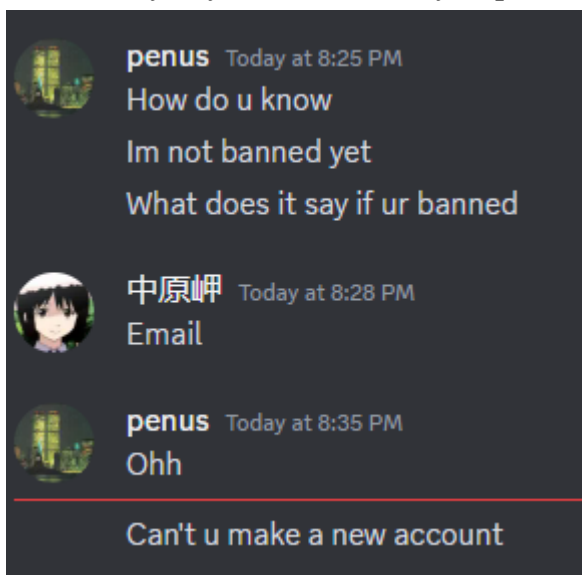

Funnily enough, before the article went down, a friend of mine would pose as Tatsuhiro to try to have the article taken down. Even a random ass user would reply to the thread, pointing out that he got exposed for being a pedophile

<https://knowyourmeme.com/forums/report-problems/topics/68569-request-to-remove-my-entry>

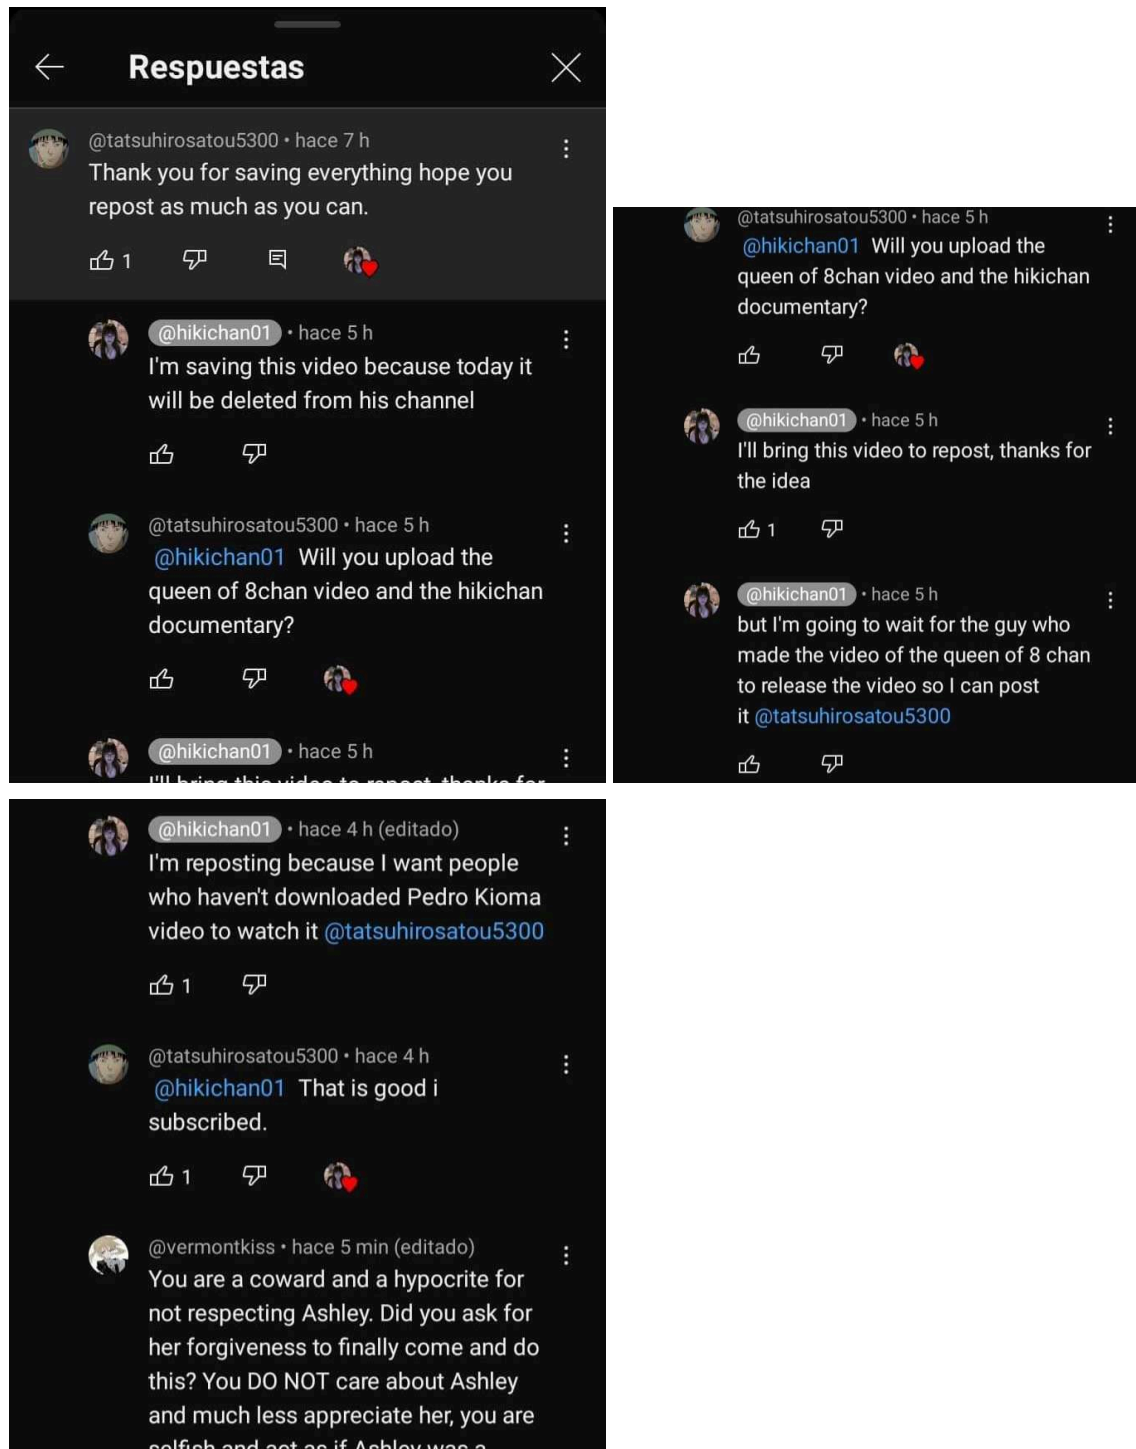

... *The page is fully blank*

This implies that if he made a new account OR article, it should be flagged for ban evasion anyway. So we can only hope he wastes his time on a new one.

Anyway, Lynn (my friend) would expose Tatsuhiro's reddit posts, which instantly prompted him to delete his account there as well. I imagine he realised how much of a fucking degenerate he appeared as.

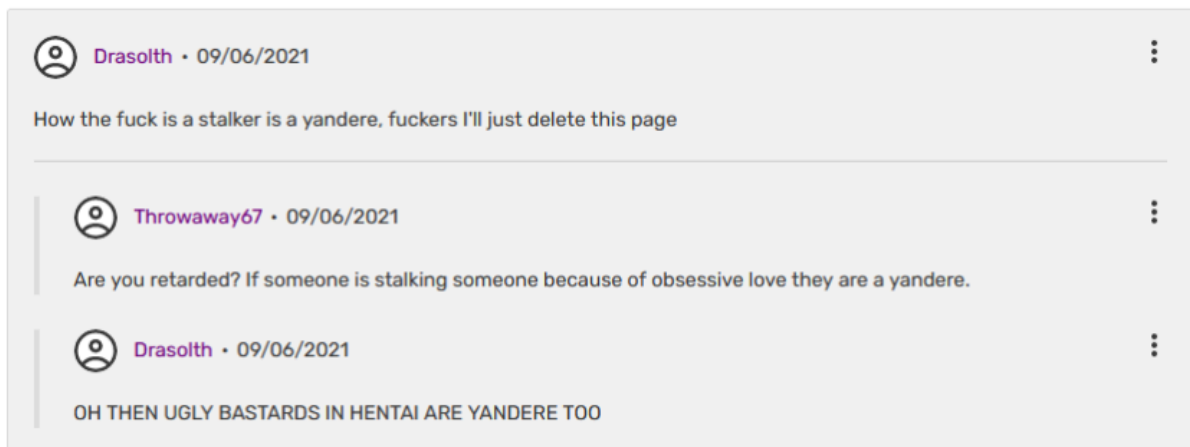

After which, we now find him desperately clinging on to whoever he can find that also archives her stuff:

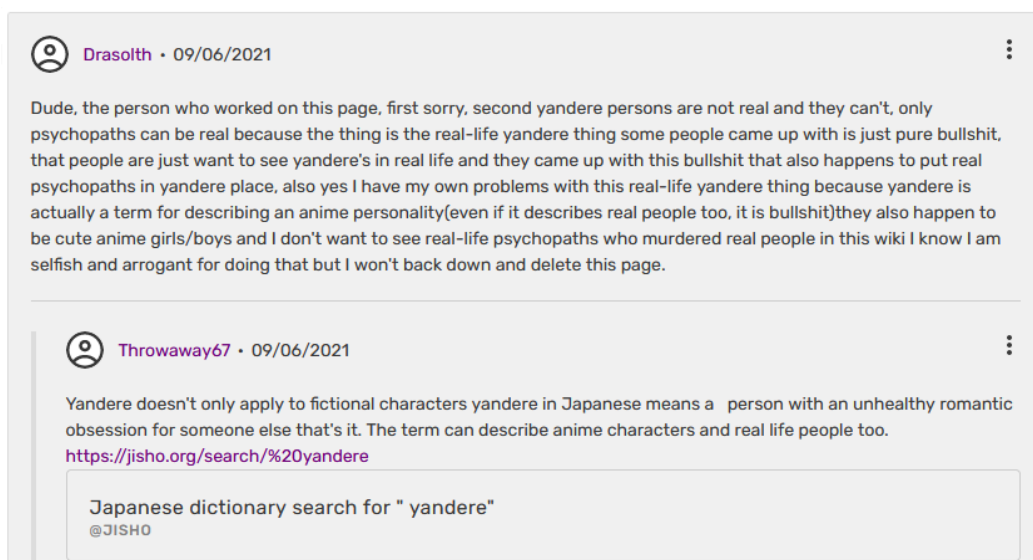

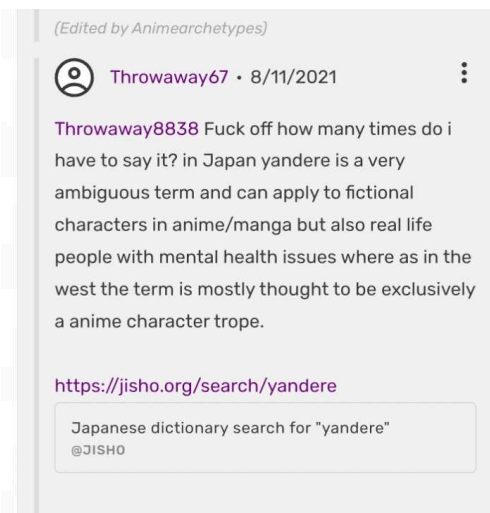

... Major W from vermontkiss. Also yeah, Tatsuhiro for some reason loved that documentary. Fortunately, that archive channel also got deleted.

Here's a fun one:

He once appeared on the “yandere wiki” under the name “hikikomori93”, the wiki is designed for fictional characters, yet this dumbass would create entries for real life people in it instead:

To try and defend himself, he would use an alt account named “Throwaway67”, in which he would defend his own misuse of the platform (same account from before):

After some time, he would get publicly outed for being a nuisance, since apparently he doesn't know how to read the wiki instructions:

Hi I have a request from the admins

User blog

Can we please remove Hikikomori93 from the wiki, as they are one who created those messed up 'IRL' yanderes and it is making us look really bad as some people have been claiming the anime community and the 'yandere' community is okay with behaviour, I think we need to set a example and make it so we cant have 'IRL' yanderes on the wiki and we sort of look insane for letting these people run amuck around the wiki.

Also, this person is clearly a troll trying to make us look bad as the only edits and posts they have made are on the 'IRL' yandere posts.

I dont use fan wikis but it's pretty fucking crystal clear this is for fictional characters

There's a guy on KYM who's whole posting is three things,
1) Contributions on a Welcome to the N.H.K. Article
and then these two are special because in both cases he is the sole contributor:
2) An article on one of those 4chan -chan suffix girls called "hikichan", who is obviously mentally ill and not very relevant to the internet but the article is crazy long and basically cataloging her entire online history,
I stumbled on this guy in the first place because KYM has a "newest images" section and I found out this guy has uploaded, in batches, 75 and counting images, mostly close ups of her face, often stills from videos.

Spoiler: these are all his uploads

and
3) A short article about a song, the main example-of-relevancy in which is a video of this girl he's creepy about dancing to the song.

So needless to say I was pretty perturbed by this guy, so I look up his username and find a profile on <https://maiotaku.com/p/hikikomori93>
if you don't want to make a dummy account to view all that's really on there is
A) screenshots from Welcome to the N.H.K., which pretty much confirms to me on top of the username that it's the same guy. (on top of the bio)
B) Confirmation that it's a man so not the girl being attention hungry or something
C) The bio, "I'm an American Hikikomori who struggles with social anxiety. I've been dealing with this extreme kind of social withdrawal on and off for over a decade i am also a huge anime fan."
D) He likes Watamote lol

So yeah it's pretty wacko imo

Okay seriously fuck Ashley Hanrahan.

This dumb bitch does not respect her fucking her fucking fans.

Recently she blew up on TikTok and over the years has been harassed and stalked which i am not condoning and i do feel bad for her however most of the stuff that is online about she willingly posted herself.

Her becoming an e-girl/meme was her own fault and the fact that she is going around playing the victim and trying to get stuff deleted like all of these chan sluts is pathetic.

She now has a white knight army of normal niggers who are going around calling us all pedos even though i am pretty sure we all liked Noriko because she was relatable.

they even got the KYM article taken down.

I really hate new Ashley she is a roastie bitch.

I can't tell if this guy is braindead or lacking cognitive function but why the fuck would she respect her "fans" ???

This dumb bitch does not respect her fucking her fucking fans.

Her becoming an e-girl/meme was her own fault and the fact that she is going around playing the victim and trying to get stuff deleted like all of these chan sluts is pathetic.

... *Him once again struggling to accept he's a problem*

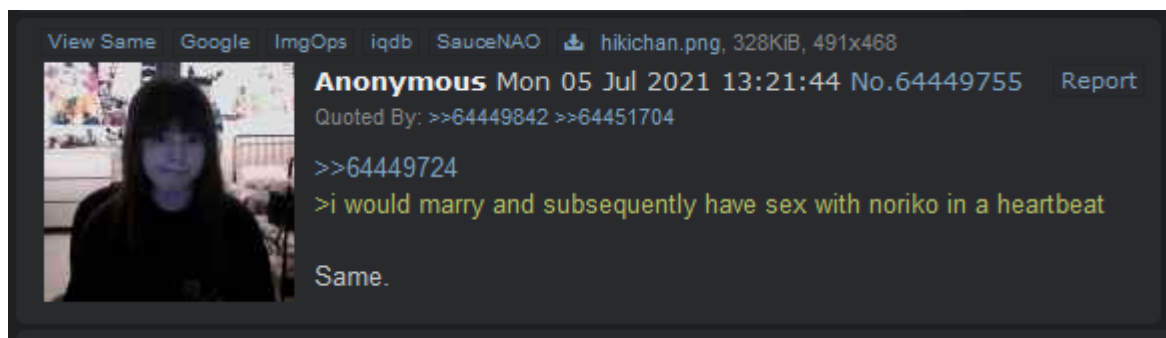

He also says “calling us pedos”, somehow he’s trying to gaslighting other users into thinking they’re being called pedos, it’s literally just him who has a thing for kids.

She now has a white knight army of normal niggers who are going around calling us all pedos even though i am pretty sure we all liked Noriko because she was relatable.

... The “white knight army” also just consists of me and my friends LMAO

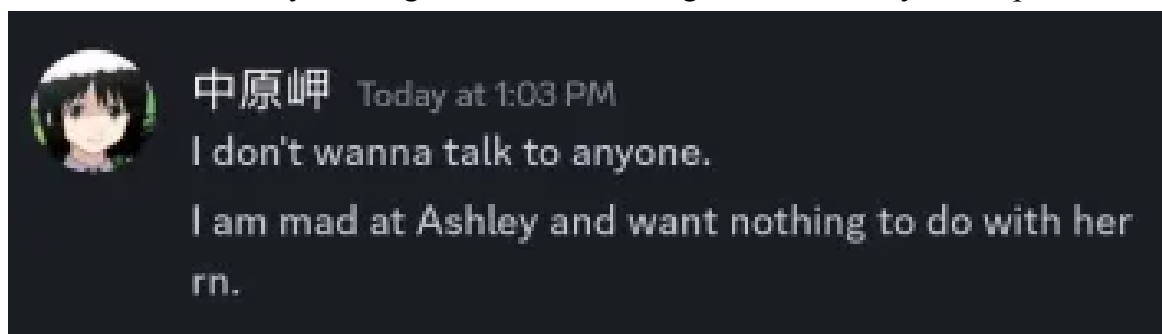

Still dumb seeing him say “new Ashley” when she’s just a normal human being now

I really hate new Ashley she is a roastie bitch.

... Some fuckin unhinged shit he’s on, to say he would fuck her with an image of her when she was 15

This is being kept here under the event he tries to make ANOTHER new archive or article. Since it’s very fucking obvious he hasn’t gotten over her yet. It’s pathetic.

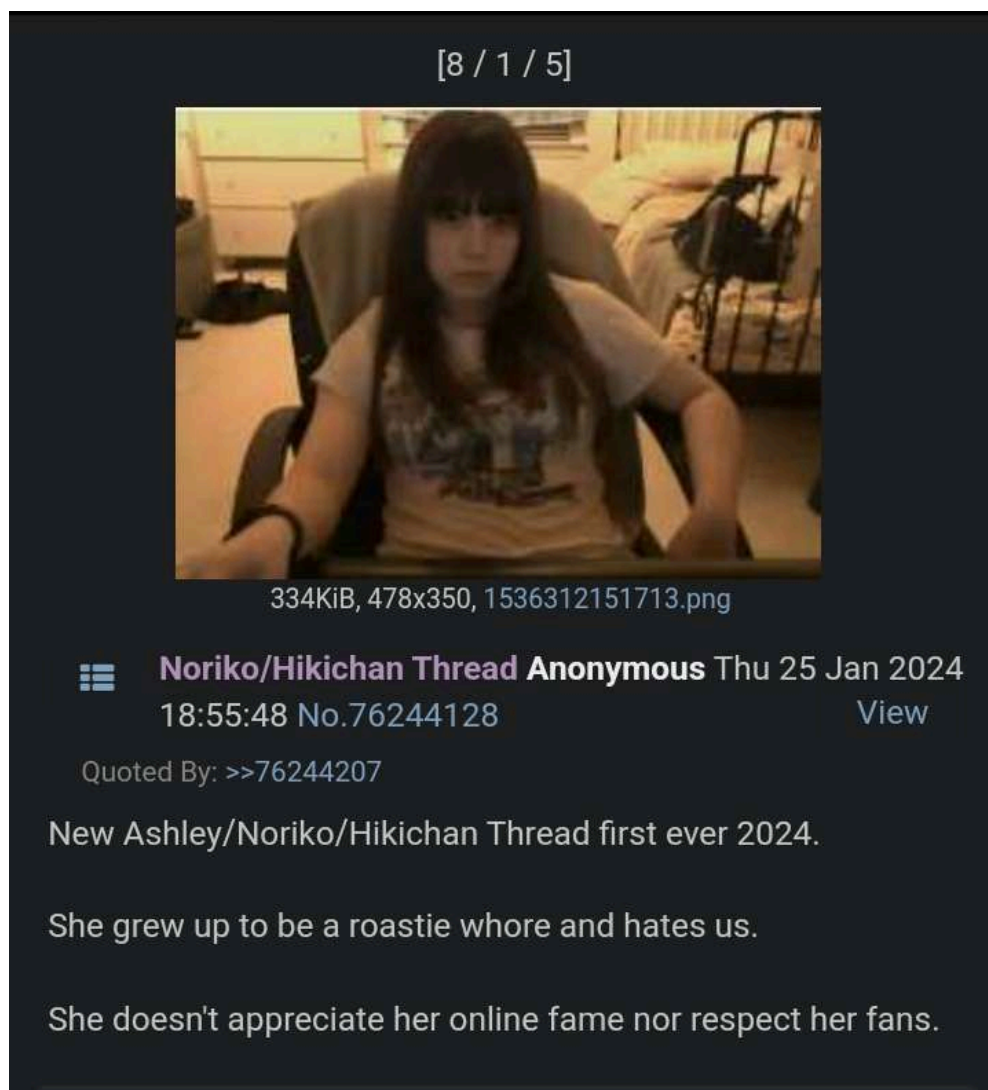

... Somehow he’s mad at her? Still makes no sense

Also, despite that last message, he very clearly DOES still care for some reason

He would post this on the R9K board of 4Chan **days** later

<https://boards.4chan.org/r9k/thread/76244128>

... Once again, he's the only one who gives a shit about her now. Why else would he make the "first ever 2024" thread on her?

God only knows what the hell is going through this guy's mind, but he really doesn't know how to let something go. He still cries about her everywhere, weeks afterwards.

And again, with his stupid ass understanding of the internet:

She doesn't appreciate her online fame nor respect her fans.

... Why the fuck would she be grateful and appreciate her fans? She doesn't monetize any of her content nor is her fanbase full of normal people. Even you, the viewer reading this. You couldn't come up with a single reason behind why she should be grateful for having a "fanbase" full of pedophiles, doxxers and stalkers.

In the same thread he would say this

I still love Noriko (Old Ashley) New Ashley however is an awful person.

Noriko will always be best waifu.

... unsurprising tbh, but that's still a 15 year old. Gotta remember

After which, a friend of mine would absolutely shit on him. His response is quite funny, considering he adds nothing of substance:

You can ignore the thread retard.

>Even on endchan you got your dick flopped out onto the table thinkin about her, we already get you bro she's a bitch stop bringing it up

You don't get it nigger faggot and never will.

>pretty sure you got exposed on kiwifarms ages ago too,

No someone posted about the hikichan KYM page in another thread.

>, obsess over someone new you fuckin troglodyte

If you were a yandere like me, you would understand it is hard to let go and the mixed emotions

... "If you were a yandere like me" is so unbelievably laughable, so he denied being an obsessive fan for ages, and now he's a yandere???

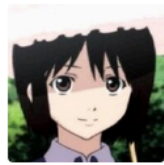

He already glamourizes the hell out of his "hikikomori" lifestyle (Even though it's just him being lazy, he goes outside at night and also gets money from his parents to live) and now he's into yanderes?

All of his previous statements about "relating" to her past, and now here he is, admitting he's obsessed with "mixed emotions". The "mixed emotions" he refers to is his obsession with a 15 year old.

What's "yandere" about crying in a vc when someone tells you to leave them alone? Is he gonna say Ashley is just a tsundere now? What the fuck is this roleplay he's pulled out of his ass, and why does he dawn that title like it's a cool thing?

Well shockingly, he's apparently been a "yandere" since **high school**. Lynn found this thread he created on the matter a year ago:

I have decided to make a thread for Yandere people.

For those who don't know Yandere (ヤンデレ) is a Japanese slang word that refers to a person with an unhealthy romantic obsession with another person.

Outside Japan it is mainly only used to refer to fictional characters in media however in Japan the term can refer to fictional characters in media as well as real life people.

While i am not a full blown yandere i do have some tendencies.

Are there any IRL yanderes on SS?

cgrrt.brns, crimsonpool, Ashu and 2 others

... After being kicked from the yandere wiki for not reading correctly, I guess he thought the "sanctioned suicide" forums would be a good place to find fellow "yanderes"

In this thread he would drop this fucking creepy ass bombshell:

ive never considered this as a possibility but as a kid i had a very unhealthy obsession with a boy in school that lasted for roughly four years

It was the same for me in high school with a girl i was obsessed with her for years. Stalked her online gave her gifts and even threatened to kill her boyfriends or guys she hung out with.

I don't really talk about this to most people because it brings up bad memories and i got in trouble for it but again this was years ago.

U a lonely person?

Yes.

... This guy seriously hasn't changed at all

He really uses the word "yandere" to reflect the demons inside him 😨 shit is super deep... 💔

This next one is ironic, considering if he really knew it was bad, why the fuck would he have consistently stayed that way since high school? He's literally **30**:

what is your opinion or stance on people who romanticize those tendencies

Its mostly just kids and weebz who don't know better but yeah they are stupid.

... It's manchild behavior for him to consistently have these "mixed emotions" since he was in high school, even though a year ago he knew it was fucked up

His own parents chiming in telling him he falls in love too easily is interesting considering his decade long obsession with Ashley, which would've formed out of relatability.

I would also like to know. Many people say they romanticize it but it seems like these tendencies cause you suffering rather than joy? Genuinely curious

They cause a lot of feelings of loneliness and i have been told by my own parents that i fall in love way too easily.

Ashu and jaxon_sunn

I wonder if his parents also knew about this:

For me, this is the part of the story that doesn't make sense to me, and makes me wonder if something is ongoing - whether they are acting upon it or not. For myself, I've spent 25+ years living a double life - normal by day, deviant by night. While I could never hurt anyone, I could see it as possibility. But hopefully your correct, and they may have the feelings, but are not acting on them.

I have been aware of my attraction for about 7 years and have never acted on it.

Many pedophiles do have self control and are married with their own kids because a lot of them are attracted to kids and adults as well.

Anyway, after his yandere episode, someone entirely random (not even kidding, it wasn't a friend) would send **this** exact google doc to him. This was his response:

That document doesn't expose anything just taking shit out of context to push your white knighting and anti-male woke agenda and there is a lot of info in there that is incorrect you got a lot wrong lmao but i wont. give context since explaining shit to zoomers who don't understand irony and 4chan culture is a waste of time you are a faggot white knight who defends e-whores.

... Once again with his "anti-male woke agenda" bullshit, no idea how that's related. I am a man lol, 3/4th of the people who worked on this are males

Highlighted in yellow, are his responses:

Ever heard of male feminist? Many of them pretend to hate men just so they can get laid.

...Very boomer statements coming from him, but also most of the people who worked on this document aren't even American, some of which are also underraged. How the fuck are we tryna get laid?

He also pulled out the "gen z" card, somehow calling everyone around you "gen z" like a psychopath justifies pedophilia? Could've picked something more creative, just reminds me of middle aged white people on facebook.

He would end off his psychotic episode by stating this:

My point still stands regardless of you guys are fucking idiots and got a lot of stuff incorrect but i guess that is to be expected from the ipad generation who has 0 critical thought anyway i am done arguing with SJWs and babies born after 9/11 trying to cancel me you will never hear from me again fuck you and fuck Ashley.

...He really loves flaunting his age and calling everyone who disagrees with him a zoomer. Even though this is regarding him being a pedophile. I find it ironic.

Also:

“I am done arguing with SJWs and babies [...] trying to cancel me you will never hear from me again”

Uh? If we’re “trying” to cancel him, doesn’t that mean we succeeded? We won’t hear from him again, apparently. Not like it matters, I’d love to see him return, he’ll get laughed at again. It’s happened multiple times now, some of the people in that 4chan thread weren’t in my friend group, just strangers who dislike him too. No wonder.

Anyway: Tatsuhiro very commonly brought gender into his arguments for absolutely no reason, hence the idiotic “anti-male” statements from before. There’s also this gem:

This is one of her better photos i like this one.

Anonymous 01/26/2024 (Fri) 16:56 [Preview] No.47497 #91 [X] del >>47507

I just wanted to say that those of you who are helping Ashley are only focused on men who harassed and stalked her but you are forgetting that some of her biggest stalkers are women and some are extremely determined, obsessive and discreet, see who hacked her accounts on YT NYaxnnyanxnexnyaxx and twitter cooliostreetcat and ashleysk was possibly an obsessive woman.

...FYI her youtube account that got hacked was hacked by someone completely anonymous. Doesn’t matter though, because this point makes no sense

More confusing is why he even brought gender into this in the first place, absolutely no one else did before him. Probably just him throwing whatever shit he has to make himself look better, considering he’s one of the only male “fans” who’s this obsessively fucking creepy.

Most of the people who stalk her are just completely anonymous as well, bringing gender into this is as pointless as bringing up what ethnicity they are. It doesn’t impact whether they’re creepy or not. It especially doesn’t impact him, considering we know him for being a degenerate anyway.

Here are a few gems from him on EndChan, Post **January 2024**:

Most of the stuff in that Google document is just shitpost that they are taking too seriously.

The people who made that are too young to understand chan culture and weren't alive during the old internet times when people didn't take everything super seriously like people do now.

In my day on the internet, we didn't take a lot of shit seriously and just fucked around and all had a good laugh.

The current generation needs to lighten up a bit.

... Yeah my bad for making a document exposing a pedophile, I just need to lighten up a bit. This is just a shitpost after all

I have said this over 9000 times but guess i gotta say it again.

Noriko is a meme Ashley is a person just like how Boxy is a meme, but Catie Wayne is a person.

When i first came across her in 2017 Ashley was already a known figure on Chan boards as she has been stalked by 4chan since 2011 and would later around the time i discovered her get picked up by 8kun and she became their version of Boxy.

Yes, i was one of the biggest contributors in helping her get more famous and gain a new generation of fans but you can't. blame me for everything especially not her recent resurgence in popularity during the last couple years the blame there goes to the YouTube algorithm and TikTok.

This take is braindead, “Boxxy” was a character played by Catie Wayne, she acted that way on purpose. Just because Markiplier has appeared in many memes, doesn’t mean he’s one too. It’s what he did that was funny and widespread that counts as a meme. Noriko isn’t a fucking meme, it’s a nickname to a person whose actions got meme’d against her control. For a 30 year old, this guy is shockingly bad at the internet.

He would end off his streak on endchan by typing this out:

Literally every normal heterosexual man is attracted to teenage girls.

It is fucking normal to like/be attracted to sexually mature young girls with boobs curves who also bleed and have the ability to give birth.

If you deny it, you are most likely a faggot.

Back in my day there were many teen girls who dated older men and the family was okay with it and didn't care if they knew the guy personally.

But nowadays everyone is so fucking paranoid that even a 17-year-old and an 18-year-old or a 19-year-old with a 32-year-old even though she is an adult are both now considered pedro.

Political correctness has ruined western society with this all men are bad and believe all women PC bullshit which btw Ashley never showed any evidence of those creepy emails she was getting but people believe her because she is a woman.

I guarantee if Ashley was a male, you hypocritical niggers would not be coming to her defense you would be making fun of her hating on her and bullying her.

Also, nice job taking the bait Grass you just got trolled retard.

Rule number 1 of the internet don't feed the trolls tbh idc about Ashley anymore i just like trolling you guys because you are so serious and get your panties in a bunch over shitpost it is almost like you don't know what a TROLL is do you.

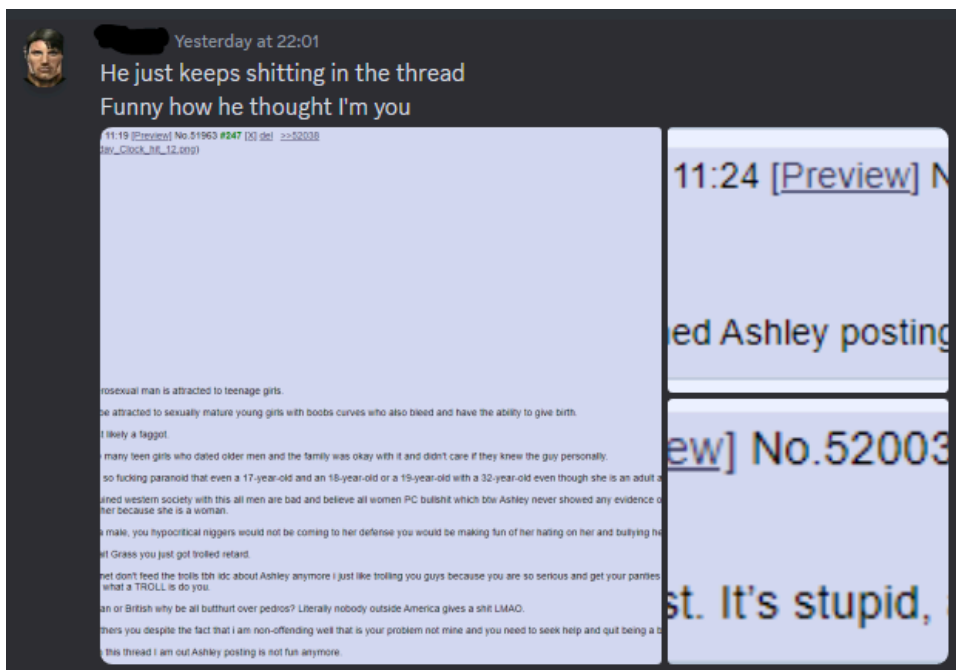

Also, if you are not American or British why be all butthurt over pedros? Literally nobody outside America gives a shit LMAO.

If my sexual orientation bothers you despite the fact that i am non-offending well that is your problem not mine and you need to seek help and quit being a bigot.

This will be my final post in this thread I am out Ashley posting is not fun anymore.

... “Grass” here refers to me, the author of this doc. The funny thing? I literally haven’t spoken to him in this thread at all, he unironically thinks anyone who opposes him is me

I can even prove it ain't me lmao:

I guess I'll break down this response a little (ignoring the blatantly pedophilic shit):

Back in my day there were many teen girls who dated older men and the family was okay with it and didn't care if they knew the guy personally.

But nowadays everyone is so fucking paranoid that even a 17-year-old and an 18-year-old or a 19-year-old with a 32-year-old even though she is an adult are both now considered pedro.

Political correctness has ruined western society with this all men are bad and believe all women PC bullshit which btw Ashley never showed any evidence of those creepy emails she was getting but people believe her because she is a woman.

... So according to him, because it was normal in the past for 30 year olds to date 17 year olds, he should be allowed to do so now in 2024... Right...

Also, the “creepy emails” Ashley was sent actually do have proof of existing, as she has shown them to me. Tatsuhiro is currently undergoing a migraine from the looks of it, because I'm pretty sure he knows about them too.

Moving on:

I guarantee if Ashley was a male, you hypocritical niggers would not be coming to her defense you would be making fun of her hating on her and bullying her.

Also, nice job taking the bait Grass you just got trolled retard.

Rule number 1 of the internet don't feed the trolls tbh idc about Ashley anymore i just like trolling you guys because you are so serious and get your panties in a bunch over shitpost it is almost like you don't know what a TROLL is do you.

... If she was a male I would be making fun of her and bullying her? For what? Literally what has she done? He couldn't even explain the offense she committed

Also again, hilarious he thinks it's me (I unironically don't know how to post on endchan) and for some reason he's convinced I fell for a troll. If I fell for a troll why is he arguing with random ass people who aren't me?

Also, if you are not American or British why be all butthurt over pedros? Literally nobody outside America gives a shit LMAO.

If my sexual orientation bothers you despite the fact that i am non-offending well that is your problem not mine and you need to seek help and quit being a bigot.

This will be my final post in this thread i am out Ashley posting is not fun anymore.

... "Butthurt" over pedos? No one outside america gives a shit? The fuck? Also apparently being a pedophile is a "sexual orientation"??? And not liking it makes me a bigot?

His final line is a welcome one, but the ironic thing is that he said he would stop “Ashley posting” literally 2 months ago. So no idea what fentanyl this guy's been sounding into his dick but he's been in the same loop for being clowned on the internet for 4 months now.

Hopefully he's finally learnt that no one wants him.

To end this document off, this is a comment from one of Tatsuhiro's own friends

In the end, he will be the one who will be harmed the most, not Ashley...
Ashley lives her life normally with her husband and friends while tatsuhiro, who says he is a recluse, cannot have compassion and respect the requests of a person he claims to like...

he will probably continue to have a terrible life because of his own childish selfishness

Fucking ironic, this friend of his was far more obsessed with Ashley than he was, they both followed her since 2015. And yet this one saw reason.

If anyone wants to reach out to the author of this google doc masterpiece for literally any reason at all, here's a discord throwaway I use every blue moon: **blankslate737**

In conclusion:

Tatsuhiro is a sociopathic pedophile who can't stop obsessing over someone who wants him to leave her alone. As soon as she returned, he began crying to himself in VC, and then proceeded to defend himself by saying it was always her fault. Now he just does this shit out of a weak grudge he created from thin air, and continues crying in random forums.

Update for the 1st of March 2024: He still literally does

We can only hope he'll make more archives, so it further proves my point that he's creepily fucking obsessed. It's not his fault though, he's just a yandere !

Fucking manchild.
