Sunflower group sigil

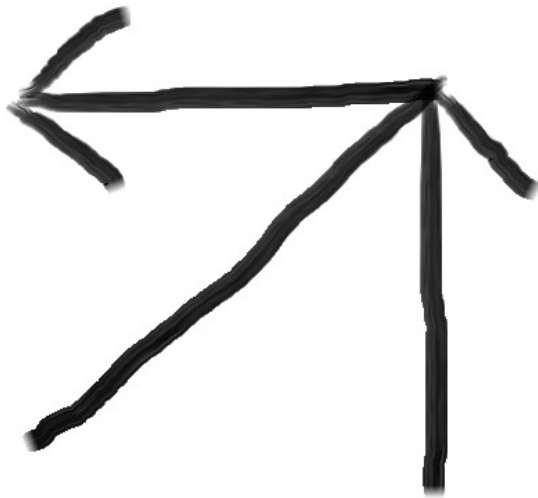

If you look at the middle of the round wooden table you will find a small silver tray. Pick one up and it will become your own copy. Place it on the table in front of you.

Project positive and warm feelings onto the tray. Your positive energy will form into a pink ball. Focus on your warm feelings, relax and let the good feelings become stronger, while the bad feelings disappear. This is the basic usage.

To initiate a group session, fill the tray with positive energy and make it overflow to the tray of the person sitting on your left. Repeat this until a circuit is formed. A minimum of 3 participants are needed for this.

To meditate with full effect using a circuit, project your energy ball into the middle of the table and let it join forces with everyone else's positive energy. Remain with your focus on the middle ball. Share your experiences with each other continuously.

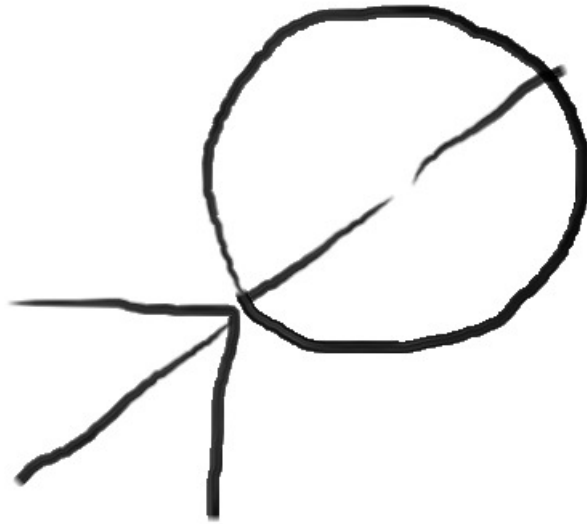

To end the group session, simply take back the energy from the middle and let it fall back on your own tray.  
Good luck!
